## ABOUT ME

Skilled and passionate software developer experienced in **designing, developing**, and deploying enterprise-level applications. Proficient in **multiple programming languages**, software development methodologies, and database management systems. Possesses strong **problem-solving** and **analytical skills** and can work effectively in a team-based environment. Committed to continuous learning and staying updated on industry trends and technologies.

## WORK EXPERIENCE

### IQUESTER SOLUTIONS LLP | MAR 2026 - PRESENT

- Fixed bugs, created templates, and performed version upgrades in **Dolibarr ERP**
- Developed custom features and code for a **multi-vendor platform** using WordPress
- Managed deployments and server configurations via cPanel and VPS environments
- Built and maintained backend systems using Laravel, including custom packages

### RXEFY TECH PVT LTD – INTERN → FULL-TIME | JUL 2024 - MAR 2026

- Contributed to Wrappid, an in-house **React-based framework**, improving core features, styling packages, and the application builder.
- Built full-stack features using Laravel and developed reusable **Laravel packages** for backend functionality.
- Integrated **APIs** including Zoho Books, WhatsApp, and Messenger for financial and messaging workflows.
- Implemented Laravel **Jobs & Queues** to handle asynchronous processing and improve performance.
- Designed **multi-tenant applications and scalable backend architectures**, monitored services using Docker, and managed deployments via cPanel to ensure system reliability.

## PROJECTS

### QUERIVERSE (ANDROID APP)

- Developed a **social media app in Java** with features like posts, likes, comments, follows, and quizzes.
- Designed user **interfaces using XML** and integrated RESTful APIs built in Laravel.
- Tested API endpoints and collaborated with a cross-functional team to ensure smooth feature integration.
